ST. LAWRENCE GAS LOWERS ITS GAS SUPPLY RATE

MASSENA NY: St. Lawrence Gas Company, Inc. has lowered its gas supply rate for the month of April by approximately 35%. The decrease is primarily due to a decrease in North American natural gas prices. "This is very good news for our customers" said Richard Campbell, President & General Manager of St. Lawrence Gas Company. "Lower market prices of natural gas will provide relief for our customers during these economically challenging times and will continue to make natural gas the preferred choice for heating and water heating in the North Country.

St. Lawrence Gas does not earn a profit on the price of natural gas. Customers who purchase their gas supply from St. Lawrence Gas pay the same price that the Company pays to purchase the natural gas in the North American market. Natural gas prices are reviewed each month and the Company's rates are adjusted to reflect the changes in the market price. Any difference between

forecast prices and actual prices is collected from or returned to customers through a Gas Cost Adjustment.

Customers are encouraged to visit www.stlawrencegas.com to look for energy efficiency tips that will help them get the best value for their energy dollar.

St. Lawrence Gas is owned by Enbridge Gas Distribution, Canada's largest natural gas distribution company. Enbridge Gas Distribution is owned by Enbridge Inc., a Canadian-based leader in energy transportation and distribution. As a distributor of energy, Enbridge owns and operates distribution services in Ontario, which distributes natural gas to about 1.9 million customers in Ontario, New York State, New Brunswick and southwestern Quebec.
