April is National Safe Digging Month

Whether it's a big project like adding a swimming pool or just planting some new shrubs around your yard, make sure you **call 8-1-1 before you grab the shovel!** Your property may contain underground utility lines. Knowing where utility lines are buried can help you avoid injury, service outages (and unhappy neighbors), and costly repairs.

Call 811 a few days prior to digging, and you'll be routed to your local 811 call center. Tell the operator where you'll be digging, what type of work you're doing, and when. Within just a few days, local utility companies (like us) will visit your site and mark the location of any underground lines, free of charge. Each utility type is marked with a specific color:

Red - electric
Yellow - natural gas
Orange - telecommunications
Blue - water
Green - sewage

April was designated as National Safe Digging Month by Common Ground Alliance to highlight the importance of calling 811 before you dig, and April (which is the start of spring and known for planting and working around the house), is the perfect time to promote it.

Visit www.call811.com or call 811 to get started with a location request. **Safety is in your hands.**

Preventing Accidental Fires

Protect your family and home from accidental fires by keeping all flammable materials away from natural gas appliances. Never use or store flammable materials where a spark or open flame could ignite them. Flammable items include:

- Gasoline
- Propane tanks
- Lighter fluid
- Solvents
- Acetone
- Adhesives
- Camp stove fuel
- Paints and thinners

When working with these materials, make sure you are in an open, well-ventilated space. Store all flammable products in approved, nonbreakable containers that are tightly closed. Use them away from any natural gas appliances or other potential sources of fire.

Work Zone Safety Week

Work zones are filled with people who have families and friends expecting them to get home safely. And we all have a role to play in getting those individuals home to their families every day. Work Zone Awareness Week, April 21-25, 2025, is a time to reflect on the laws and importance of keeping those working on our roads safe.

Because of the nature of our business, the majority of field work occurs in streets or near the side of the road. To help keep employees safe, Liberty sets up work zones. Please help us maintain our crews' safety by reducing your speed, paying attention to signs, and moving to a different lane when possible.

To watch a video demonstrating the importance of being vigilant around work zones, scan the QR code or visit the "Safety" section of www.libertyenergyandwater.com.
